## ***WHAT IS A SPEEDWAY***

Speedway bikes have no brakes, a 500cc Methanol fuelled engine and can accelerate to 60mph faster than a formula one car. It's fast and furious and offers entertainment for all the family. Being family friendly allows fans to interact with the riders and the arenas make for excellent viewing.

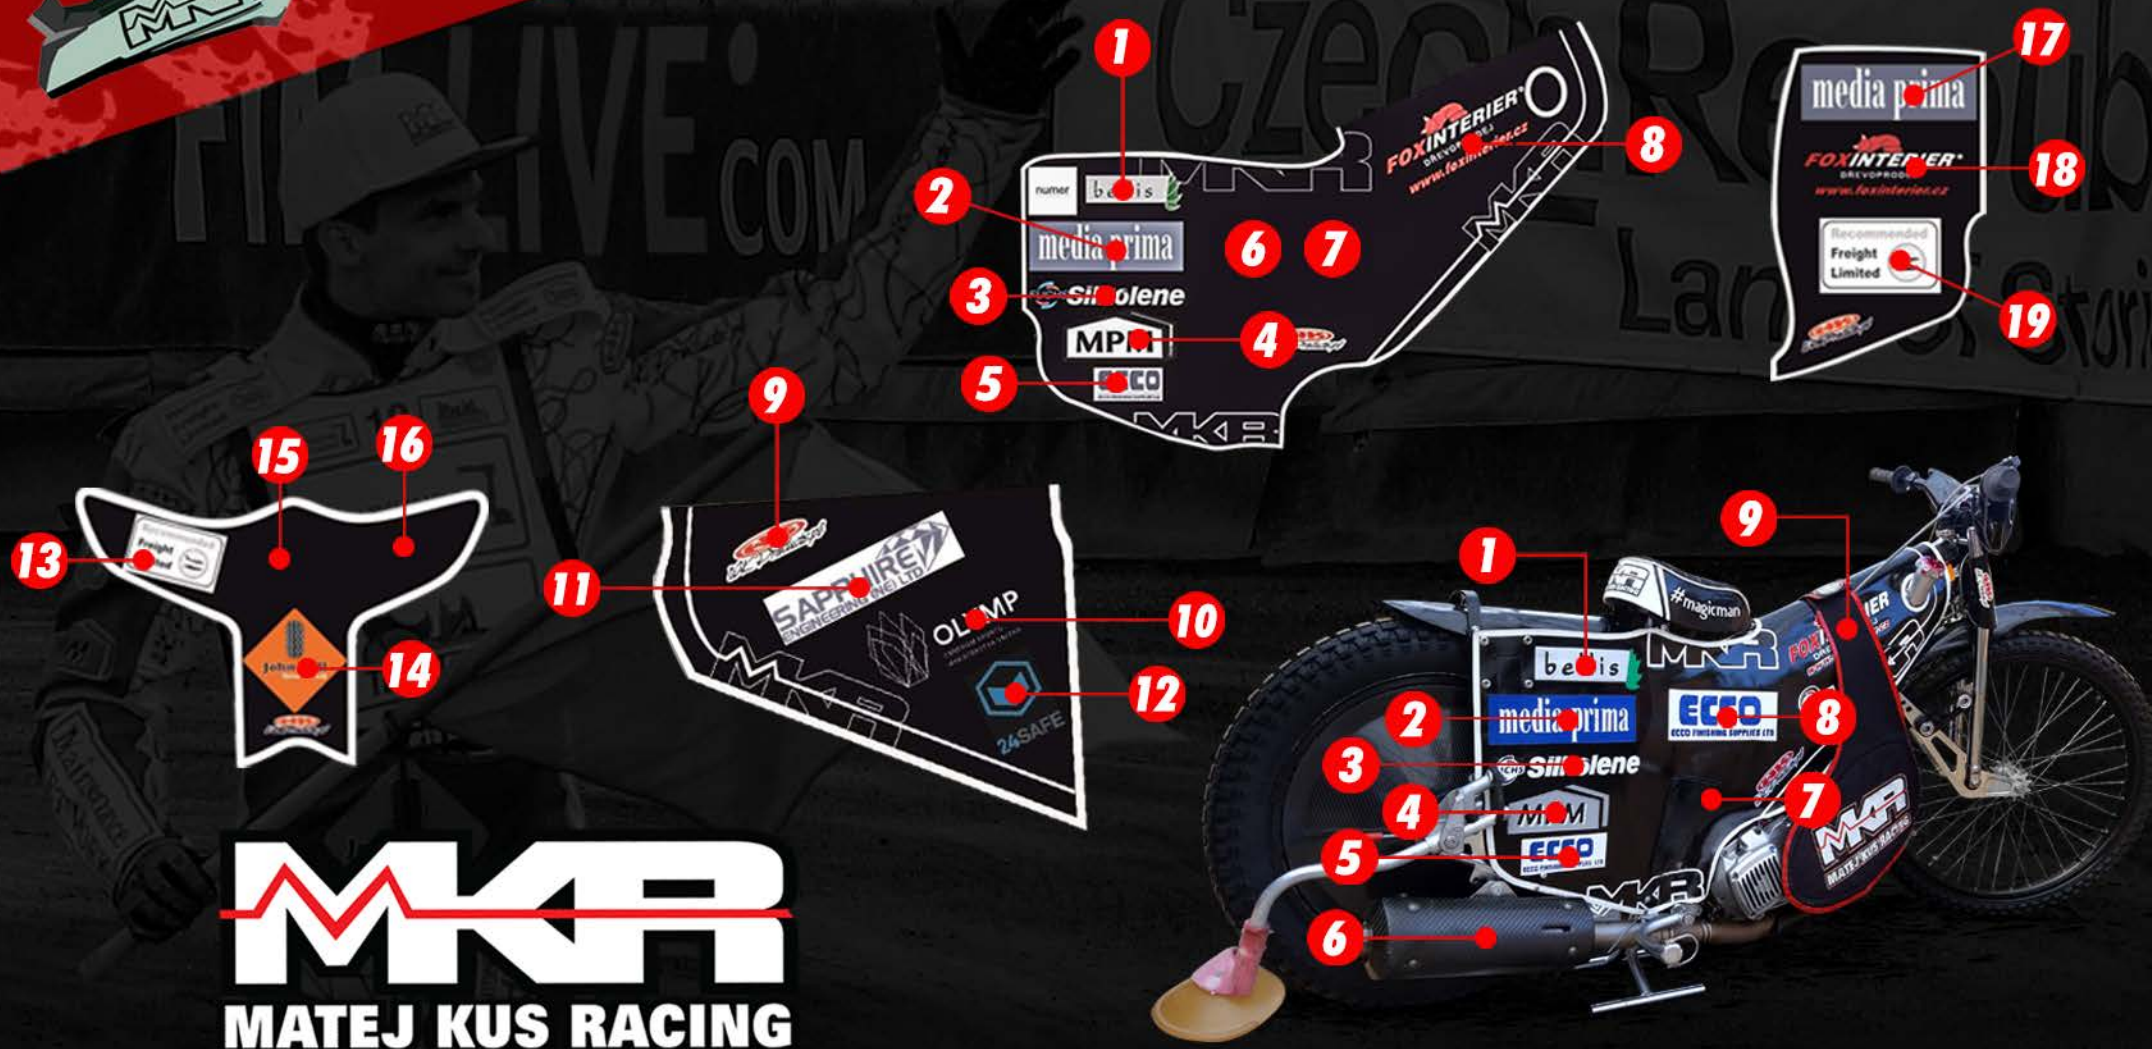

This is an ideal opportunity for companies and individuals to become involved by advertising their brand or having their name on the race suits, helmets, motorcycles, team clothing and race van.
